

KAILA Detailed To-Do List with Complete Templates and Forms

First 90 Days Startup Execution Checklist and Printable Field Pack

Metric	Target
Providers	50
Client survey responses	100
Real service requests	30
Completed or strongly matched jobs	15
Starting categories	5-8
Active matching period	30-45 days

Core direction: validation first, provider supply first, trust first, manual first, free first, and software second.

How to Use This Portable Guide

This file combines the KAILA 90-day execution checklist with copy-ready templates and printable forms. Use the checklist to operate the pilot, then use the forms to collect data consistently.

PDF layout note: major form headings begin at the top of a page to avoid headings sitting at the bottom and to keep the first lines readable.

Section	How to Use
90-Day Checklist	Use as the operating roadmap for founder alignment, provider recruitment, client validation, concierge pilot, metrics, and go/no-go review.
Templates and Forms Pack	Copy into Google Forms/Sheets or print for field use. Each form includes purpose, when to use, recommended fields, and a printable blank version.
Weekly Rhythm	Update provider sheet, request tracker, completed job log, dispute log, and weekly metrics report before every meeting.

First 7 Days: Exact Starter Checklist

Start immediately without building the app. Week 1 is successful if KAILA can be explained clearly, collect signups, receive requests, and track everything.

Day 1: Pilot Scope

- ☐ Decide pilot area and barangays.
- ☐ Choose 5-8 starting categories.
- ☐ Define client groups and provider groups.
- ☐ Write simple KAILA explanation.
- ☐ Confirm free pilot.
- ☐ Create KAILA file folder.

Day 2: Facebook Page

- ☐ Create Facebook page.
- ☐ Add logo/profile image and cover photo.
- ☐ Add description, contact details, and category list.
- ☐ Draft pinned post.
- ☐ Draft first provider recruitment post.

Day 3: Provider Form + Sheet

- ☐ Create provider signup form.
- ☐ Create provider database sheet.
- ☐ Add trust-level, status, and response tracking columns.
- ☐ Test form submission and fix unclear questions.

Day 4: Client Form + Tracker

- ☐ Create client request form.
- ☐ Create request tracker, completed job log, and dispute log.
- ☐ Test request form and fix unclear fields.

Day 5: Rules + Scripts

- ☐ Write provider rules and client reminders.
- ☐ Write recruitment script, request confirmation, matching script, offer comparison, and rating templates.

Day 6: 100 Provider Leads

- ☐ Search Facebook groups and Marketplace.
- ☐ List shops and local contacts.
- ☐ Ask friends and relatives for referrals.
- ☐ Build and categorize 100-provider lead list.

Day 7: Start Outreach

- ☐ Contact first 20 provider leads.
- ☐ Send provider signup form.
- ☐ Record outreach status.
- ☐ Collect work samples.
- ☐ Confirm first active providers.

Phase 0: Founder Alignment

Goal: Make sure everyone understands that KAILA is a local trust and service-matching system, not just an app.

Owner: Founder / core pilot team | Timeframe: Before public outreach

Success criteria: Team agrees to validation first, provider supply first, trust first, manual first, and free first.

To-Do Checklist

- ☐ Write the main operating rule: KAILA is a validation project first before it becomes a software project.
- ☐ Explain why building the full app too early is risky: full app -> no users -> wasted time.
- ☐ Agree that the first version will be operated manually using forms, sheets, Messenger, and Facebook.
- ☐ Agree that the first pilot will be free for clients and providers.
- ☐ Agree that the first pilot will start in one focused local area, not everywhere.
- ☐ Agree that provider supply must be built before public client demand is activated.
- ☐ Agree that trust will be shown through provider levels, records, ratings, work samples, and response behavior.
- ☐ Name the first pilot team roles even if one person holds multiple roles.
- ☐ Create a simple folder for founder notes, decisions, pilot files, forms, and source documents.
- ☐ Document every major decision so the team can avoid confusion later.

Required Outputs

- ☐ One-page founder alignment note
- ☐ Pilot operating principles
- ☐ Named pilot roles and responsibilities
- ☐ Shared KAILA folder structure

Phase 1: Define the First Pilot

Goal: Make the first KAILA pilot narrow, realistic, measurable, and easy to operate.

Owner: Business strategy lead + operations lead | Timeframe: Days 1-2

Success criteria: Pilot area, clients, providers, duration, categories, and free-pricing rule are final.

To-Do Checklist

- ☐ Decide whether the pilot will cover all of Gingoog City or selected barangay clusters only.
- ☐ List the exact barangays included in the first pilot.
- ☐ Identify barangays that are easier to reach, active online, and likely to have many service providers.
- ☐ Define the first client groups: households, renters, homeowners, students, small businesses, offices, and local shops.
- ☐ Write a simple target client description for the pilot.
- ☐ Define the first provider groups: skilled workers, repair technicians, freelancers, shops, home-based providers, and certified or experienced workers.
- ☐ Choose a 30-45 day active matching period.
- ☐ Set the pilot start date, end date, and review date.
- ☐ Confirm that KAILA will not charge clients during validation.
- ☐ Confirm that KAILA will not charge providers during validation.
- ☐ Confirm that KAILA will not collect payments or commissions during the pilot.
- ☐ Write the pilot scope in a short document that the team can follow.

Required Outputs

- ☐ Pilot scope document
- ☐ Exact pilot area and barangays
- ☐ Target client definition
- ☐ Target provider definition
- ☐ Pilot calendar
- ☐ Free pilot policy

Phase 2: Choose Starting Categories

Goal: Pick practical, common, and manageable services that can produce real requests and real matches quickly.

Owner: Operations lead + provider acquisition lead | Timeframe: Days 1-3

Success criteria: 5-8 starting categories are clearly defined with allowed and not-yet-allowed services.

To-Do Checklist

- ☐ Select 5-8 pilot categories only; avoid launching too broadly.
- ☐ Recommended category: appliance repair for common urgent household needs.
- ☐ Recommended category: plumbing for leaks, clogs, faucets, and toilet concerns.
- ☐ Recommended category: electrical for basic light, outlet, breaker, and wiring assessment tasks.
- ☐ Recommended category: computer repair for students, offices, and households.
- ☐ Recommended category: motorcycle or small engine repair for local mobility needs.
- ☐ Recommended category: carpentry or home maintenance for small repairs and improvements.
- ☐ Recommended category: cleaning or odd jobs for flexible supply.
- ☐ Recommended category: digital services such as layouts, tarpaulin design, basic tech help, and simple graphics.
- ☐ For each category, list what is included during the pilot.
- ☐ For each category, list what is not included yet because it is too risky, too large, or too hard to verify.
- ☐ Avoid high-risk, medical, legal, financial, and child-safety sensitive services during the first pilot.
- ☐ Create a category reference sheet for the team and for provider onboarding.

Required Outputs

- ☐ Final category list
- ☐ Allowed service descriptions
- ☐ Not-yet-allowed service list
- ☐ Category reference sheet

Phase 3: Build the Manual System

Goal: Set up the simple tools needed to run KAILA manually before software development.

Owner: Product/tech lead + operations lead | Timeframe: Days 2-5

Success criteria: KAILA can collect provider signups, receive client requests, track matching, and record completed jobs.

To-Do Checklist

- ☐ Create the Facebook Page, preferably KAILA Gingoog or KAILA Local Help Gingoog.
- ☐ Add a profile image, cover image, short description, contact method, and service category list.
- ☐ Add a pinned post explaining that KAILA is in pilot/testing stage.
- ☐ Add a clear note that providers are independent service providers and not KAILA employees.
- ☐ Create the Provider Signup Form using Google Forms or a similar tool.
- ☐ Provider form must capture full name, display name, contact number, Messenger/Facebook link, barangay, category, skills, years of experience, availability, coverage area, and minimum fee.
- ☐ Provider form must request work sample photos, tools/equipment details, shop/business name if any, certificates/training proof if any, and optional ID for verification.
- ☐ Provider form must include consent to be contacted, receive ratings, and follow pilot rules.
- ☐ Create the Client Request Form with client name/nickname, contact method, barangay, category, problem description, urgency, budget, preferred schedule, photos/videos, and permission to forward request.
- ☐ Create the Provider Sheet with provider ID, contact information, category, skills, availability, service radius, trust level, status, response tracking, completed jobs, ratings, and notes.
- ☐ Create the Request Tracker with request ID, client details, category, urgency, budget, providers contacted, offers received, selected provider, agreed amount, status, ratings, issues, and notes.
- ☐ Create the Completed Job Log with job ID, request ID, provider, category, agreed amount, dates, ratings, issues, and feedback.
- ☐ Create the Dispute Log with dispute ID, request ID, complaint source, description, evidence, action taken, resolution, and status.
- ☐ Test every form and sheet by submitting sample data.
- ☐ Fix confusing questions before public use.

Required Outputs

- ☐ Facebook Page
- ☐ Provider Signup Form
- ☐ Client Request Form
- ☐ Provider Sheet
- ☐ Request Tracker
- ☐ Completed Job Log
- ☐ Dispute Log

Phase 4: Prepare Rules, Scripts, and Templates

Goal: Use standard messages and rules so the pilot is easier to operate consistently.

Owner: Operations lead + marketing/community lead | Timeframe: Days 4-6

Success criteria: Team has ready-to-use provider rules, client reminders, recruitment script, request script, comparison template, and rating messages.

To-Do Checklist

- ☐ Write provider rules: respond honestly and only accept jobs they can perform.
- ☐ Write provider rules: give a clear price or estimate and avoid unfair price changes after arrival.
- ☐ Write provider rules: explain if price changes because job scope changes.
- ☐ Write provider rules: communicate delays early and respect client property and privacy.
- ☐ Write provider rules: no harassment, threats, pressure, or abusive communication.
- ☐ Write provider rules: do not bypass KAILA tracking during the pilot.
- ☐ Write provider rules: allow job completion tracking and accept ratings/reviews.
- ☐ Write client reminders: KAILA is a matching pilot and providers are independent.
- ☐ Write client reminders: describe the job clearly and add photos/videos when possible.
- ☐ Write client reminders: final price should be agreed before work starts and scope changes may affect price.
- ☐ Prepare the provider recruitment message explaining the free pilot, request notifications, ability to accept/decline, and price control.
- ☐ Prepare the client request confirmation message after form submission.
- ☐ Prepare the provider request forwarding script with request ID, category, area, problem, urgency, budget, and question: can you take this job?
- ☐ Prepare a simple offer comparison template for clients.
- ☐ Prepare completion confirmation and rating messages for both client and provider.
- ☐ Store all scripts in one document so operators can copy/paste consistently.

Required Outputs

- ☐ Provider rules
- ☐ Client reminders
- ☐ Recruitment script
- ☐ Request forwarding script
- ☐ Offer comparison template
- ☐ Rating message templates

Phase 5: Recruit Providers First

Goal: Build provider supply before inviting many clients, because clients will trust KAILA only if providers are available.

Owner: Provider acquisition lead | Timeframe: Days 8-21

Success criteria: 100 provider leads are listed and about 50 providers are ready for pilot matching.

To-Do Checklist

- ☐ Build an initial lead list of at least 100 provider leads.
- ☐ Collect leads from personal contacts, relatives, friends, neighbors, former classmates, and local referrals.
- ☐ Search local Facebook groups, Marketplace listings, service posts, and local business pages.
- ☐ Visit or list repair shops, hardware stores, electronics stores, motorcycle shops, and computer shops.
- ☐ Ask every interested provider to recommend two other skilled workers.
- ☐ Contact provider leads using the standard recruitment message.
- ☐ Explain that the pilot is free and that providers can accept, decline, or give their own offer.
- ☐ Ask what services they provide, what areas they cover, and when they are available.
- ☐ Ask for work sample photos or references if available.
- ☐ Send the provider signup form to interested providers.
- ☐ Track every outreach status: not contacted, contacted, interested, form sent, form completed, listed, needs verification, active, not interested, or follow-up needed.
- ☐ Group providers by category and barangay or service radius.
- ☐ Identify priority providers who reply fast, communicate clearly, show work samples, accept ratings, and are available for urgent jobs.
- ☐ Aim for 8 appliance repair providers, 6 plumbers, 6 electricians, 5 computer repair providers, 5 motorcycle repair providers, 5 carpentry/maintenance providers, 10 cleaning/odd job providers, and 5 digital service providers.
- ☐ Mark provider status as Active only after they confirm willingness to receive pilot requests.

Required Outputs

- ☐ 100 provider lead list
- ☐ 50 listed providers
- ☐ Provider categories covered
- ☐ Active provider list
- ☐ Priority provider list

Phase 6: Make Trust Visible

Goal: Show clients that provider trust levels are different and earned over time.

Owner: Operations lead + provider acquisition lead | Timeframe: Days 8-30 and continuous

Success criteria: Every provider has a trust level and status, and higher levels are supported by evidence.

To-Do Checklist

- ☐ Assign Level 1 - Listed to providers who submitted basic profile information.
- ☐ Assign Level 2 - Identity Verified to providers who completed a basic identity check with consent.
- ☐ Assign Level 3 - Work Verified to providers with work samples, references, or completed pilot jobs.
- ☐ Assign Level 4 - Top Rated only after good ratings, fast response, low dispute rate, and completed jobs.
- ☐ Assign Level 5 - Certified / Business Verified to providers with certificates, permits, shops, training proof, or recognized professional background.
- ☐ Collect work sample photos, references, shop photos, tool photos, certificates, permits, and completed job records where available.
- ☐ Create a simple provider profile format showing display name, category, specific services, area covered, availability, price range, years of experience, trust level, work samples, completed jobs, rating, and notes.
- ☐ Create provider status labels: New, Active, Needs Verification, Slow Response, Inactive, Warning, Suspended, Removed.
- ☐ Never present a provider as fully verified unless there is evidence.
- ☐ Update trust levels after every completed job or serious incident.

Required Outputs

- ☐ Trust-level system
- ☐ Initial provider profiles
- ☐ Verification tracker
- ☐ Provider status tracker

Phase 7: Validate Client Demand

Goal: Prove that clients actually experience the problem KAILA wants to solve.

Owner: Marketing/community lead + operations lead | Timeframe: Days 22-30

Success criteria: 100 resident responses, or at least 30-50 strong responses before first request intake.

To-Do Checklist

- ☐ Prepare a client survey asking whether they needed a skilled worker in the past 6 months.
- ☐ Ask what service they needed and how they found the provider.
- ☐ Ask how long it took to find help and what the hardest part was.
- ☐ Ask whether they compared prices and whether the price was clear before the job started.
- ☐ Ask what made them trust or distrust the provider.
- ☐ Ask if they were satisfied with the work.
- ☐ Ask if they would post a need in a platform like KAILA.
- ☐ Ask if they would upload photos/videos of the problem.
- ☐ Ask if they would compare offers from providers.
- ☐ Ask if they would rate the provider after completion.
- ☐ Ask which services they would most likely use first.
- ☐ Collect responses from friends, family, neighbors, Facebook groups, students, small business owners, office workers, homeowners, renters, and community contacts.
- ☐ Track repeated pain points such as: lisod mangita ug kasaligan, walay klaro nga presyo, dugay mu-reply, referral ra gyud mi magsalig, wala ko kabalo kinsa duol, and hadlok ko basin dili maayo.
- ☐ Summarize total responses, most common service needs, strongest pain points, willingness to use KAILA, willingness to upload photos, willingness to rate, and top requested categories.

Required Outputs

- ☐ Client survey form
- ☐ 100 responses or 30-50 strong early responses
- ☐ Client pain point summary
- ☐ Top requested categories list

Phase 8: Run the Concierge Pilot

Goal: Manually operate the first KAILA workflow and collect real evidence.

Owner: Operations lead + provider acquisition lead | Timeframe: Days 31-75

Success criteria: 30 real requests, 15 completed or strongly matched jobs, tracked offers, ratings, and dispute notes.

To-Do Checklist

- ☐ Announce that KAILA is accepting pilot requests in the selected categories.
- ☐ Post the client request form and allow Messenger inquiries.
- ☐ Explain that the pilot is free and providers are independent.
- ☐ For every request, check client contact, location, category, description, urgency, budget, photos/videos, and permission to forward.
- ☐ Assign a Request ID to every valid request.
- ☐ Select 3-5 matching providers based on category, area, trust level, availability, and response behavior.
- ☐ Forward the request using the standard format and record the time sent.
- ☐ Record who replied, how fast they replied, their offer amount, available schedule, and notes.
- ☐ Prepare a clear offer comparison table for the client.
- ☐ Include provider display name, offer amount, available time, trust level, and notes without sharing unnecessary private details.
- ☐ Ask the client to choose the preferred provider.
- ☐ Confirm schedule, agreed amount, and scope of work with the selected provider.
- ☐ Share necessary contact details only after selection.
- ☐ Track job status from Received to Checking Details, Forwarded, Offers Received, Client Selecting, Accepted, In Progress, Completed by Provider, Confirmed by Client, Rated, Cancelled, or Disputed.
- ☐ After the job, ask the client if it was completed, if price was followed, if they were satisfied, their rating, comments, and whether they would use KAILA again.
- ☐ Ask the provider if the job was completed, if the client was easy to work with, their rating, comments, and whether they would accept KAILA requests again.
- ☐ Record final amount paid, date completed, ratings, issues, repeat-use potential, and notes.

Required Outputs

- ☐ 30 real requests
- ☐ 15 completed or strongly matched jobs
- ☐ Offer records
- ☐ Response time records
- ☐ Ratings
- ☐ Dispute notes
- ☐ Pilot evidence

Phase 9: Track Metrics Weekly

Goal: Judge the pilot by evidence instead of excitement.

Owner: Finance/admin lead + operations lead | Timeframe: Weekly during pilot

Success criteria: Weekly metrics summaries show supply strength, demand, activity, trust, disputes, and GMV.

To-Do Checklist

- ☐ Track total providers, active providers, providers by category, providers with work samples, verified providers, and providers who replied to requests.
- ☐ Track average provider response time, providers with completed jobs, top providers, slow-response providers, and inactive providers.
- ☐ Track number of requests received, requests by category, requests by barangay, requests by urgency, requests with budget, and requests with photos/videos.
- ☐ Track requests successfully matched, cancelled, and requests with no provider response.
- ☐ Track offers per request, providers contacted per request, time to first response, time from request to accepted provider, completion rate, strong match rate, repeat clients, and repeat provider participation.
- ☐ Track average client rating, average provider rating, number of disputes, dispute type, resolved disputes, unresolved disputes, price complaints, quality complaints, no-shows, and communication complaints.
- ☐ Record the amount of every completed job.
- ☐ Compute GMV as the total peso value of completed jobs through KAILA.
- ☐ Create a weekly summary using a consistent format.

Required Outputs

- ☐ Weekly metrics summary
- ☐ Category performance report
- ☐ Provider performance report
- ☐ Trust/dispute report
- ☐ GMV report

Phase 10: Weekly Operating Rhythm

Goal: Review evidence, improve the workflow, and assign next actions every week.

Owner: Pilot team lead | Timeframe: Weekly

Success criteria: Every week ends with lessons, decisions, action owners, and deadlines.

To-Do Checklist

- ☐ Before the meeting, update the provider sheet, request tracker, completed job log, and dispute log.
- ☐ Before the meeting, compute weekly metrics and identify top 3 problems, top 3 lessons, and next actions.
- ☐ During the meeting, review how many providers joined and how many are active.
- ☐ During the meeting, review how many client requests came in and which categories are strongest or weakest.
- ☐ During the meeting, review response time, offers per request, completed jobs, ratings, and disputes.
- ☐ Discuss what needs to change next week in scripts, forms, provider rules, categories, or matching method.
- ☐ After the meeting, write decisions made, assign action owners, set deadlines, and update documents.
- ☐ Follow up with slow providers, unresolved clients, or open disputes.

Required Outputs

- ☐ Weekly summary
- ☐ Lessons learned
- ☐ Problems found
- ☐ Assigned next actions
- ☐ Decision notes

Phase 11: Protect KAILA Early

Goal: Protect provider data, client data, photos, ratings, disputes, brand files, and internal documents.

Owner: Founder + finance/admin lead | Timeframe: Continuous

Success criteria: Sensitive data is shared only when needed and all records are organized carefully.

To-Do Checklist

- ☐ Limit access to the provider database.
- ☐ Do not share the full provider list publicly.
- ☐ Share only necessary provider details with clients after selection.
- ☐ Keep contact numbers private unless needed for job coordination.
- ☐ Store identity or verification files carefully and only with consent.
- ☐ Do not forward unnecessary client details to multiple providers.
- ☐ Ask consent before sharing exact client location details beyond what is necessary.
- ☐ Ask consent before posting success stories or using photos publicly.
- ☐ Do not post sensitive home or property photos without permission.
- ☐ Keep ratings and disputes factual, respectful, and evidence-based.
- ☐ Record both sides in complaints or disputes.
- ☐ Organize logo, forms, pitch documents, source files, and version numbers in one folder structure.
- ☐ Clarify who owns documents, brand files, forms, and code created for KAILA.

Required Outputs

- ☐ Data protection rules
- ☐ Folder structure
- ☐ Access control list
- ☐ Consent reminders
- ☐ Organized KAILA files

Phase 12: 90-Day Review and Go / No-Go Decision

Goal: Decide the next move based on real pilot evidence.

Owner: Founder + full pilot team | Timeframe: Days 76-90

Success criteria: The team chooses proceed, narrow, redesign, extend pilot, or pause using actual data.

To-Do Checklist

- ☐ Prepare a final pilot report with total providers recruited, active providers, providers by category, total client responses, and total real requests.
- ☐ Include requests by category and barangay, offers per request, response rate, average response time, completed jobs, strongly matched jobs, and completion rate.
- ☐ Include ratings, disputes, GMV, top performing categories, weak categories, client complaints, provider complaints, operational challenges, and recommended next step.
- ☐ Proceed to MVP if clients posted real requests, providers responded, at least 15 jobs were completed or strongly matched, both sides accepted ratings, disputes were manageable, and the team could handle matching.
- ☐ Narrow scope if only 1-2 categories performed strongly or if some categories had weak provider response or low client demand.
- ☐ Extend the pilot if results are promising but there is not enough data yet.
- ☐ Redesign or pause if providers refuse, clients avoid posting, trust barriers are too high, operations cannot support matching, disputes are too frequent, or response rate is too weak.
- ☐ Write the official go/no-go decision and the reason behind it.
- ☐ Create the next 90-day plan based on the decision.

Required Outputs

- ☐ Final pilot report
- ☐ Go/no-go decision
- ☐ MVP or redesign recommendation
- ☐ Category focus decision
- ☐ Next 90-day plan

Phase 13: Build MVP Only After Strong Signals

Goal: Build only the software that supports the proven manual workflow.

Owner: Product/tech lead | Timeframe: After successful pilot evidence

Success criteria: The MVP feature list is based on proven behavior, not guesses.

To-Do Checklist

- ☐ Confirm client-side MVP features: register, login, post request, choose category, add description, add budget, add urgency, upload photos, compare offers, choose provider, confirm completion, and rate provider.
- ☐ Confirm provider-side MVP features: register, login, create profile, select categories, set coverage area, set availability, view matching requests, send offer, update job status, and rate client.
- ☐ Confirm admin-side MVP features: manage users, providers, categories, verification, requests, offers, jobs, disputes, ratings, and reports.
- ☐ Build in this order: landing page, registration/login, role selection, provider profile, categories, client request posting, provider request dashboard, offers/counter-offers, client selection, basic messaging, completion confirmation, ratings, admin dashboard, reports, and notifications.
- ☐ Do not build in-app payments, GPS live tracking, native Android app, native iOS app, complex AI matching, large-scale automation, or advanced commission systems in the first MVP.
- ☐ Convert the manual workflow into user stories before coding.
- ☐ Use pilot data to prioritize categories and features.

Required Outputs

- ☐ MVP feature list
- ☐ MVP build sequence
- ☐ Postponed features list
- ☐ Software plan based on pilot evidence

Phase 14: Monetize Slowly

Goal: Do not charge until providers feel real value.

Owner: Business strategy lead + finance/admin lead | Timeframe: After trust and usage are proven

Success criteria: Monetization starts with provider visibility products instead of early commission.

To-Do Checklist

- ☐ Keep the pilot free during validation.
- ☐ Do not take commission during early validation.
- ☐ Do not charge per lead until providers already see value.
- ☐ Do not introduce subscriptions before repeated demand is proven.
- ☐ Prepare future provider visibility offers such as premium provider profile, featured listing, category boost, verified badge processing, Facebook page feature, monthly provider performance summary, and business account page.
- ☐ Recommended first paid product: provider visibility package, not commission.
- ☐ Draft a Free Provider Profile offer with basic listing and ability to receive requests.
- ☐ Draft a Premium Provider Profile offer with featured placement, better profile layout, more work photos, trust badge display, and monthly performance summary.
- ☐ Test willingness to pay only after providers receive real requests or completed jobs.

Required Outputs

- ☐ Monetization postponed policy
- ☐ Draft provider visibility offer
- ☐ No-commission early pilot rule
- ☐ Future pricing test plan

Templates and Forms Pack

Use these as the complete operating forms for the KAILA concierge pilot. Copy the field tables into Google Forms/Sheets or print the blank sections for field work.

Code	Template / Form	Primary Use

Form D	Provider Lead Tracker	Use this as the working list for 100 provider leads before they become official KAILA providers.
Form E	Provider Signup Form	Use this to collect complete provider information for listing, matching, verification, and future profile creation.
Form F	Provider Interview Notes	Use this to understand provider motivation, pricing, availability, concerns, and what would make them trust KAILA.
Form G	Provider Profile Card Template	Use this as the standard format for showing provider details internally or to clients when presenting offers.
Form H	Provider Rules Agreement	Use this before activating a provider so expectations are clear and disputes are easier to manage.
Form I	Client Survey Form	Use this to prove whether residents actually experience the problem KAILA wants to solve.
Form J	Client Request Intake Form	Use this to collect enough information to match the client with the right providers and reduce back-and-forth.
Template K	Provider Request Broadcast Template	Use this exact format when forwarding client requests to providers so replies are easier to track.
Form L	Offer Comparison Sheet	Use this to show clients their choices clearly without overwhelming them.
Form M	Job Completion and Two-Way Rating Form	Use this after every accepted job to confirm completion, collect ratings, and build trust history.
Form N	Completed Job Log	Use this as the official evidence record for completed jobs, ratings, GMV, and repeat behavior.
Form O	Dispute Report Form	Use this for no-shows, price disputes, poor quality, property damage, rude communication, payment issues, and scope misu...
Form P	Weekly Metrics Report	Use this every week to judge the pilot by evidence instead of excitement.
Form Q	Weekly Founder Meeting Notes	Use this to keep the team aligned and to make sure every meeting ends with actions, owners, and deadlines.
Form R	90-Day Go / No-Go Review Form	Use this at the end of the pilot to choose: proceed to MVP, narrow scope, extend pilot, redesign, or pause.
Template S	Facebook and Messenger Copy Templates	Use these ready-to-copy messages for public posts, provider outreach, request confirmation, follow-up, and success stori...

Form A: Founder Alignment and Decision Log

Purpose: Use before outreach and every time the team makes a major decision. This prevents confusion about roles, ownership of tasks, and direction.

When to use: Day 1, then every founder meeting or major pivot.

Recommended Fields / Sheet Columns

Field	Type	Required	Notes
Date of discussion	Date	Yes	Use exact date.
Attendees	Text	Yes	List everyone present.
Main decision or issue	Long text	Yes	Example: pilot area, category change, provider rule.
Options considered	Long text	Yes	List 2-4 options if applicable.
Final decision	Long text	Yes	Write the exact agreed decision.
Reason for decision	Long text	Yes	Base this on evidence or practical constraints.
Owner/s	Name/s	Yes	Person responsible for action.
Deadline	Date	Yes	When output must be completed.
Risks / concerns	Long text	Optional	What can go wrong.
Next review date	Date	Optional	When to revisit.

Printable Blank Version

Date:	_____
Attendees:	_____
Decision / issue:	_____ _____
Options considered:	_____ _____ _____
Final decision:	_____ _____ _____
Reason:	_____ _____ _____
Owner/s:	_____
Deadline:	_____
Risks / concerns:	_____ _____
Next review date:	_____

Form B: Pilot Scope Sheet

Purpose: Use this to make the first pilot narrow, clear, and measurable. It becomes the single source of truth for the first 90 days.

When to use: Day 1-2 before any public announcement.

Recommended Fields / Sheet Columns

Field	Type	Required	Notes
Pilot name	Text	Yes	Example: KAILA Gingoog Concierge Pilot.
Pilot area	Text	Yes	City and barangays included.
Barangays excluded for now	Text	Optional	Clarifies boundaries.
Target clients	Checkbox / text	Yes	Households, renters, students, small businesses, etc.
Target providers	Checkbox / text	Yes	Repairmen, technicians, freelancers, shops.
Starting categories	Multi-select	Yes	Choose 5-8 categories only.
Pilot start date	Date	Yes	Start of active preparation or matching.
Active matching period	Date range	Yes	Recommended 30-45 days.
Pricing rule	Text	Yes	Free for clients and providers during validation.
Success targets	Number list	Yes	50 providers, 100 responses, 30 requests, 15 matches.
Decision date	Date	Yes	When to proceed, narrow, redesign, or pause.

Printable Blank Version

Pilot name:	_____
Pilot area:	_____
Included barangays:	_____
Target clients:	_____
Target providers:	_____
Starting categories:	_____
Pilot start date:	_____ Active matching dates: _____ to _____
Pricing rule:	_____
Success targets:	_____
Decision date:	_____

Form C: Service Category Setup Sheet

Purpose: Use this for each starting category so the team knows what is allowed, what is not allowed, and what provider proof is needed.

When to use: Days 1-3 before provider recruitment and client request intake.

Recommended Fields / Sheet Columns

Field	Type	Required	Notes
Category name	Text	Yes	Example: Plumbing.
Included services	Checklist	Yes	List specific jobs allowed during pilot.
Not yet allowed	Checklist	Yes	Risky or too-large jobs excluded.
Minimum provider count	Number	Yes	Target supply for this category.
Ideal provider count	Number	Optional	Higher density target.
Required provider info	Checklist	Yes	Skills, coverage area, price range, work samples.
Verification needed	Checklist	Optional	ID, work sample, certificate, shop proof.
Common client questions	Long text	Optional	Helps write request form hints.
Safety or liability notes	Long text	Yes	Especially for electrical or mechanical work.

Printable Blank Version

Category name: _____
Included services: _____ _____ _____
Not yet allowed: _____ _____
Minimum providers: _____ Ideal providers: _____
Required provider info: _____ _____ _____
Verification needed: _____ _____
Common client questions: _____ _____
Safety/liability notes: _____ _____ _____

Form D: Provider Lead Tracker

Purpose: Use this as the working list for 100 provider leads before they become official KAILA providers.

When to use: Days 6-21 during recruitment sprint.

Recommended Fields / Sheet Columns

Column	Purpose	Example / Notes	Status Options
Lead ID	Unique tracking number	PL-001	-
Provider name	Person or shop name	Juan Repair Shop	-
Category	Main service	Appliance repair	-
Source	Where found	Referral, Facebook, shop visit	-
Contact link/number	How to reach	Messenger or phone	-
Barangay / area	Location	Brgy 23	-
Date contacted	Outreach record	2026-06-01	-
Interest level	Recruitment signal	High / Medium / Low	High, Medium, Low
Outreach status	Recruitment stage	Form sent	Not contacted, Contacted, Interested, Form sent, Completed, Listed, Not interested, Follow-up
Follow-up date	Next action	2026-06-03	-
Notes	Extra context	Referred by Provider A	-

Printable Blank Version

[illegible]

Form E: Provider Signup Form

Purpose: Use this to collect complete provider information for listing, matching, verification, and future profile creation.

When to use: Days 8-21 and continuous provider onboarding.

Recommended Fields / Sheet Columns

Question / Field	Type	Required	Notes
Full legal name	Short answer	Yes	For internal record.
Display name	Short answer	Yes	Name shown to clients.
Contact number	Short answer	Yes	Primary contact.
Messenger / Facebook link	Short answer	Yes	For pilot requests.
Barangay / base area	Short answer	Yes	Matching by location.
Service category	Dropdown / checkboxes	Yes	Allow multiple if appropriate.
Specific services offered	Paragraph	Yes	Be specific.
Years of experience	Number	Yes	Trust signal.
Coverage area / travel limit	Paragraph	Yes	Barangays or km radius.
Availability	Checkboxes	Yes	Weekdays, weekends, emergency, scheduled.
Minimum service fee	Short answer	Optional but helpful	Use PHP.
Sample price range	Paragraph	Optional	Clarify estimate only.
Work sample photos	File upload/link	Optional but recommended	Previous work, tools, shop.
Certificate/training/permit	File upload/link	Optional	For higher trust level.
Consent to be contacted	Yes/No	Yes	Required for pilot.
Consent to receive ratings	Yes/No	Yes	Required for trust system.
Agreement to provider rules	Checkbox	Yes	Must agree before activation.

Printable Blank Version

Full name: _____	Display name: _____
Contact number: _____	Messenger/Facebook: _____
Barangay/base area: _____	Coverage area: _____
Service category/categories: _____	
Specific services offered: _____	
Years of experience: _____ Availability: _____	
Minimum fee / price range: _____	
Work samples submitted? ☐ Yes ☐ No Certificate/permit? ☐ Yes ☐ No	
Consent: ☐ Contact for requests ☐ Receive ratings ☐ Follow provider rules	
Signature/name confirmation: _____ Date: _____	

Form F: Provider Interview Notes

Purpose: Use this to understand provider motivation, pricing, availability, concerns, and what would make them trust KAILA.

When to use: During provider recruitment, especially for priority categories.

Recommended Fields / Sheet Columns

Question	Answer Type	Required	Why Ask This
What services do you offer?	Long text	Yes	Clarifies category and matching.
How many years have you done this work?	Number/text	Yes	Trust signal.
How do clients usually find you?	Long text	Yes	Shows current discovery behavior.
How many jobs do you get weekly?	Number/range	Optional	Supply-side baseline.
Do you want more clients?	Yes/No + why	Yes	Provider motivation.
What areas can you cover?	Text	Yes	Matching radius.
How fast can you respond to urgent jobs?	Text	Yes	Response expectation.
How do you estimate price?	Long text	Yes	Helps avoid pricing conflict.
Are you comfortable submitting offers/counter-offers?	Yes/No	Yes	Marketplace behavior.
What kind of clients are difficult?	Long text	Optional	Risk signal.
What concerns do you have about KAILA?	Long text	Yes	Trust barrier.

Printable Blank Version

Provider: _____	Category: _____	Date: _____
Services offered: _____ _____		
Years of experience: _____ Weekly jobs: _____		
How clients usually find provider: _____ _____		
Wants more clients? [] Yes [] No Why: _____ _____		
Coverage area: _____ _____		
Urgent response speed: _____		
Pricing method: _____ _____		
Comfortable with offers/counter-offers? [] Yes [] No		
Concerns about KAILA: _____ _____ _____		
Interviewer notes: _____ _____ _____ _____		

Form G: Provider Profile Card Template

Purpose: Use this as the standard format for showing provider details internally or to clients when presenting offers.

When to use: After provider signup and before forwarding offers to clients.

Recommended Fields / Sheet Columns

Section	Fields	Visibility	Notes
Basic identity	Display name, category, base area	Client-visible	Avoid sharing full private details too early.
Service details	Specific services, experience, availability	Client-visible	Helps comparison.
Pricing	Minimum fee, offer amount, notes	Client-visible	Clarify estimate vs final price.
Trust level	Listed, Identity Verified, Work Verified, Top Rated, Certified/Business Verified	Client-visible	Never exaggerate.
Proof	Work samples, completed KAILA jobs, ratings	Client-visible if permitted	Use only with consent.
Internal notes	Contact number, ID status, dispute notes	Internal only	Protect privacy.

Printable Blank Version

Display name: _____ Category: _____
Base area: _____ Coverage area: _____
Specific services: _____ _____ _____
Experience: _____ years Availability: _____
Minimum fee/price range: _____ _____
Trust level: ☐ Listed ☐ Identity Verified ☐ Work Verified ☐ Top Rated ☐ Certified/Business Verified
Work samples/links: _____ _____
Completed KAILA jobs: _____ Average rating: _____
Internal notes: _____ _____ _____

Form H: Provider Rules Agreement

Purpose: Use this before activating a provider so expectations are clear and disputes are easier to manage.

When to use: Before provider status becomes Active.

Recommended Fields / Sheet Columns

Rule	Provider Confirmation	Why It Matters	Notes
I will only accept jobs I can reasonably perform.	Checkbox	Protects client trust.	-
I will give clear estimates or offers.	Checkbox	Reduces pricing conflict.	-
I will not unfairly change price after arrival unless scope changes.	Checkbox	Protects fairness.	Explain scope changes.
I will communicate delays early.	Checkbox	Protects response trust.	-
I will respect client property and privacy.	Checkbox	Protects safety.	-
I will not harass, threaten, or pressure clients.	Checkbox	Protects platform trust.	Severe issue may cause removal.
I understand ratings are part of KAILA.	Checkbox	Builds trust system.	-
I understand serious complaints may affect status.	Checkbox	Quality control.	-

Printable Blank Version

Provider name: _____ Date: _____
Please check each item:
☐ I will only accept jobs I can reasonably perform.
☐ I will give clear estimates or offers.
☐ I will not unfairly change price after arrival unless scope changes.
☐ I will communicate delays early.
☐ I will respect client property and privacy.
☐ I will not harass, threaten, or pressure clients.
☐ I understand ratings are part of KAILA.
☐ I understand serious complaints may affect my visibility or status.
Provider confirmation/signature: _____

Form I: Client Survey Form

Purpose: Use this to prove whether residents actually experience the problem KAILA wants to solve.

When to use: Days 22-30, before and during soft request intake.

Recommended Fields / Sheet Columns

Question	Type	Required	Purpose
Barangay / area	Short answer	Yes	Demand map.
In the past 6 months, did you need a repairman, technician, mechanic, cleaner, designer, or skilled worker?	Yes/No	Yes	Problem incidence.
What service did you need?	Short answer	If yes	Category demand.
How did you find the provider?	Multiple choice	Yes	Current discovery method.
How long did it take?	Multiple choice	Yes	Search friction.
What was the hardest part?	Paragraph	Yes	Pain point.
Did you compare prices?	Yes/No	Yes	Offer comparison behavior.
Was the price clear before the job started?	Yes/No	Yes	Pricing trust.
What made you trust or distrust the provider?	Paragraph	Yes	Trust driver.
Would you post your need through KAILA and receive offers?	Scale 1-5	Yes	Demand signal.
Would you upload photos/videos of the problem?	Yes/No	Yes	Workflow fit.
Would you rate the provider after completion?	Yes/No	Yes	Trust system fit.

Printable Blank Version

Barangay/area: _____ Age range: _____
Needed a provider in past 6 months? [] Yes [] No
Service needed: _____
How did you find provider? _____
How long did it take? _____
Hardest part: _____ _____ _____
Compared prices? [] Yes [] No Price clear before job? [] Yes [] No
Trust/distrust reason: _____ _____ _____
Would use KAILA? 1 2 3 4 5
Would upload photos/videos? [] Yes [] No
Would rate provider? [] Yes [] No
Most likely categories to use: _____ _____

Form J: Client Request Intake Form

Purpose: Use this to collect enough information to match the client with the right providers and reduce back-and-forth.

When to use: Days 31-75 during active concierge pilot.

Recommended Fields / Sheet Columns

Field	Type	Required	Notes
Client name or nickname	Short answer	Yes	May be nickname for privacy.
Contact method	Phone/Messenger	Yes	For follow-up.
Barangay / area	Short answer	Yes	Do not share exact location too early.
Service category	Dropdown	Yes	Use starting categories only.
Problem description	Paragraph	Yes	Ask for details.
Urgency	Dropdown	Yes	Emergency, Today, This Week, Flexible, Scheduled.
Budget range	Short answer	Recommended	Helps providers send offers.
Preferred schedule	Short answer	Recommended	Matching availability.
Photos/videos	File/link	Recommended	Improves estimates.
Permission to forward request	Yes/No	Yes	Privacy consent.
Consent to rate after job	Yes/No	Yes	Trust system.

Printable Blank Version

Request ID: _____	Date/time received: _____
Client name/nickname: _____	Contact: _____
Barangay/area: _____	
Category: _____ Urgency: ☐ Emergency ☐ Today ☐ This Week ☐ Flexible ☐ Scheduled	
Problem description: _____ _____ _____ _____	
Budget range: _____ Preferred schedule: _____	
Photos/videos provided? ☐ Yes ☐ No	
Permission to forward request to matching providers? ☐ Yes ☐ No	
Consent to rating after job? ☐ Yes ☐ No	

Template K: Provider Request Broadcast Template

Purpose: Use this exact format when forwarding client requests to providers so replies are easier to track.

When to use: Every time KAILA forwards a request to 3-5 matching providers.

Recommended Fields / Sheet Columns

Line	Content	Required	Notes
Request ID	KAILA Request #____	Yes	Unique tracking ID.
Category	Service category	Yes	Example: Plumbing.
Area	Barangay/city only	Yes	Avoid exact home address at first.
Problem	Short clear summary	Yes	No unnecessary personal data.
Urgency	Emergency/Today/This Week/Flexible/Scheduled	Yes	Speed expectation.
Budget	PHP range or not stated	Recommended	Helps offer.
Question	Can you take this job? Send offer and available time.	Yes	Call to action.

Copy-Ready Message / Template

KAILA Request #____ Category: _____ Area: _____ Problem: _____ Urgency: _____ Budget: PHP _____ Can you take this job? If yes, please send your offer amount, available time, and any scope notes. Thank you.

Printable Blank Version

KAILA Request #_____
Category: _____
Area: _____
Problem: _____
Urgency: _____ Budget: PHP _____
Can you take this job? If yes, send offer amount, available time, and scope notes.
Sent to providers: _____

Time sent: _____ Replies received: _____

Form L: Offer Comparison Sheet

Purpose: Use this to show clients their choices clearly without overwhelming them.

When to use: After receiving provider offers and before client selects provider.

Recommended Fields / Sheet Columns

Column	Purpose	Example	Notes
Provider display name	Identify option	Provider A	Avoid full private details until selected.
Trust level	Credibility signal	Work Verified	Never exaggerate.
Offer amount	Price comparison	PHP 750	Clarify estimate or fixed price.
Available time	Scheduling	Today 5 PM	Important for urgent jobs.
Scope notes	Clarification	Includes labor only	Avoid misunderstanding.
KAILA notes	Internal/admin comment	Fast responder	Optional.

Printable Blank Version

Request ID: _____ Client: _____				
Provider Trust Level Offer Amount Available Time Scope Notes				
Client selected provider: _____				
Agreed amount: PHP _____ Schedule: _____				
Final scope confirmation: _____				

Form M: Job Completion and Two-Way Rating Form

Purpose: Use this after every accepted job to confirm completion, collect ratings, and build trust history.

When to use: Immediately after provider marks complete or client confirms work is done.

Recommended Fields / Sheet Columns

Field	Who Answers	Required	Notes
Was the job completed?	Client + Provider	Yes	Both sides confirm.
Final amount paid	Client or provider	Yes	For GMV.
Was the agreed price followed?	Client	Yes	Pricing trust.
Client rating of provider	Client	Yes	1-5.
Provider rating of client	Provider	Yes	1-5.
Comments	Both	Recommended	Qualitative evidence.
Issue encountered	Both	Yes	Even if none.
Would use/accept KAILA again?	Both	Yes	Repeat intent.

Printable Blank Version

Job ID: _____ Request ID: _____ Date completed: _____
Provider: _____ Client: _____ Category: _____
Final amount paid: PHP _____
Client confirmation: Job completed? ☐ Yes ☐ No Agreed price followed? ☐ Yes ☐ No
Client rating of provider: 1 2 3 4 5
Client comments: _____ _____ _____

Form O: Dispute Report Form

Purpose: Use this for no-shows, price disputes, poor quality, property damage, rude communication, payment issues, and scope misunderstandings.

When to use: Whenever a client or provider reports an issue.

Recommended Fields / Sheet Columns

Field	Type	Required	Notes
Dispute ID	Short answer	Yes	Unique issue record.
Request / Job ID	Short answer	Yes	Link to job.
Reported by	Client/Provider/Admin	Yes	Who raised issue.
Issue type	Dropdown	Yes	No-show, price change, quality, damage, payment, scope, communication.
Description	Paragraph	Yes	Stick to facts.
Evidence collected	Checklist/links	Yes	Photos, chats, offer amount, agreed scope.
Other side response	Paragraph	Recommended	Fair review.
Action taken	Dropdown/text	Yes	No action, warning, status change, suspension, removal.
Resolution	Paragraph	Yes	Final result.
Status	Dropdown	Yes	Open, under review, resolved, closed.

Printable Blank Version

Dispute ID: _____ Request/Job ID: _____ Date reported: _____
Reported by: [] Client [] Provider [] Admin
Issue type: [] No-show [] Price change [] Poor quality [] Property damage [] Payment [] Scope misunderstanding [] Communication [] Other
Description: _____ _____ _____
Evidence collected: [] Chat [] Photos/videos [] Original request [] Offer amount [] Agreed scope [] Completion confirmation
Other side response: _____ _____ _____
Action taken: _____ _____ _____
Resolution/status: _____ _____ _____

Form P: Weekly Metrics Report

Purpose: Use this every week to judge the pilot by evidence instead of excitement.

When to use: End of every pilot week.

Recommended Fields / Sheet Columns

Metric	Value	Target / Notes	Decision Use
Total providers	Number	Toward 50	Supply strength.
Active providers	Number	Active means willing to receive requests	Actual supply.
Requests received	Number	Toward 30	Demand signal.
Offers per request	Average	Aim 2-5 where possible	Marketplace activity.
Average response time	Time	Shorter is better	Provider seriousness.
Completed jobs	Number	Toward 15	Core proof.
Strongly matched jobs	Number	Useful if not completed yet	Near-success.
GMV	PHP total	Completed job value	Economic activity.
Average client rating	1-5	Trust signal	Quality.
Average provider rating	1-5	Two-way trust	Client quality.
Disputes	Number + type	Lower is better	Risk.
Top category	Text	Highest demand/response	Focus.

Offers per request: _____ Avg response time: _____
GMV: PHP _____
Average client rating: _____ Average provider rating: _____
Disputes: _____ Main issue types: _____
Strongest categories: _____
Weakest categories: _____
Decision: ☐ Proceed to MVP ☐ Narrow scope ☐ Extend pilot ☐ Redesign ☐ Pause
Reason for decision: _____
Next 90-day plan: _____

Template S: Facebook and Messenger Copy Templates

Purpose: Use these ready-to-copy messages for public posts, provider outreach, request confirmation, follow-up, and success stories.

When to use: Throughout provider recruitment and concierge pilot.

Recommended Fields / Sheet Columns

Template	Use Case	Copy / Notes	Important Caution
Pinned page intro	Explain KAILA	Short explanation of pilot and categories	Say providers are independent.
Provider recruitment	Invite providers	Free pilot, can accept/decline, control offer	Do not promise guaranteed clients.
Client request announcement	Invite requests	List categories and request form link	Mention pilot/testing stage.
Request confirmation	After client submits	KAILA will review and look for matching providers	Avoid guaranteeing availability.
Rating follow-up	After job	Ask for 1-5 rating and comments	Keep tone respectful.
Success story	With permission	Share category, problem, outcome	Never post private info without consent.

Copy-Ready Message / Template

Pinned Post Draft: KAILA Gingoog is a pilot project that helps residents find local service providers for practical needs such as appliance repair, plumbing, electrical concerns, computer repair, motorcycle repair, home maintenance, cleaning, odd jobs, and digital services. This is a free pilot. Providers are independent service providers. KAILA helps organize requests, offers, and ratings so clients can compare options more clearly. Need help? Submit a request: [link] Want to join as provider? Sign up here: [link]

Printable Blank Version

Pinned post notes: _____

Provider recruitment post: _____

Client request announcement: _____

Request confirmation message: _____

Rating follow-up message: _____

Success story draft: _____

Final Pilot Success Targets

Use these targets before considering MVP development.

Metric	Target
Providers	50
Client survey responses	100
Real service requests	30
Completed or strongly matched jobs	15
Starting categories	5-8
Active matching period	30-45 days

Final Reminder

The correct first version of KAILA is not a full app. It is a provider list, client request form, request tracker, manual matching process, offer comparison process, completion confirmation process, rating process, weekly metrics review, and evidence-based go/no-go decision.
