

PROBLEM

Finding trusted local help is still informal, slow, and hard to verify.

SOLUTION

KAILA turns informal referrals into a structured request, match, pay, and review workflow.

MARKET OPPORTUNITY

Philippines is the upside market Gingoog City is the proof market.

PRODUCT DEMO

The browser MVP and native wrapper now show the core marketplace workflow.

BUSINESS MODEL

KAILA monetizes after the marketplace proves real provider value.

WHY NOW

The behavior is already digital; the trust system is missing.

COMPETITION

KAILA wins by combining local focus, search, verification, ratings, and structured workflo

GO-TO-MARKET

Start narrow in Gingoog City, prove density, then replicate the playbook.

TRACTION

Current stage: founder-grade package, browser MVP, native wrapper, and Gingoog validation

FINANCIAL PROJECTIONS

Lean 3-year model: founder-led pilot before paid marketplace.

FUNDING ASK

Seeking lean pilotsupportafter building the first browser MVPand native wrapper.

TEAM

Founder-led by a technical builder with validation-first discipline.

VISION

Become the leading on-demand services platform for Philippine cities.
