

KAILA Provider Recruitment and Operations Playbook

Playbook

Operations Playbook

Supply-side growth, onboarding, rules, retention, and dispute handling

Provider Recruitment Principle

KAILA is a two-sided marketplace, but the supply side must be built first. Clients will only trust the platform if there are enough relevant, responsive, and credible providers. Provider recruitment is therefore the first operational priority.

Target Provider Groups

- Home-based appliance repair technicians.
- Electricians and plumbers who accept household jobs.
- Motorcycle mechanics and small engine repair workers.
- Computer repair technicians and software troubleshooters.
- Carpenters, welders, painters, and general maintenance workers.
- Graphic designers, layout artists, tarpaulin designers, and digital freelancers.
- Cleaning, gardening, errands, hauling, and manpower providers.
- Small shops that already provide repair or installation services.

Recruitment Channels

- Personal network: friends, neighbors, relatives, classmates, local contacts.
- Facebook search: local service posts, buy-and-sell groups, marketplace posts, pages of local technicians.
- Field visit: repair shops, hardware stores, electronics stores, motorcycle shops, computer shops.
- Community referrals: barangay contacts, homeowners, sari-sari store owners, school alumni, church/community groups.
- Provider-to-provider referrals: ask every provider to recommend two other skilled workers.

Provider Pitch Script

Simple version: "We are building KAILA, a local platform that helps people find trusted workers. Many clients ask online if anyone knows a plumber, electrician, technician, mechanic, or designer. We want to list reliable providers like you so clients can find you when they need your service. The pilot is free. You can accept or decline requests, and you can give your own offer."

Provider Onboarding Checklist

- Full name and display name.
- Contact number and preferred contact channel.
- Service categories and specific skills.
- Years of experience.
- Coverage area and travel limits.
- Availability schedule and emergency availability.
- Sample price range or minimum service fee.
- Photos of previous work, tools, or shop if available.
- Optional certificates, business permit, or training proof.
- Valid ID for internal verification if provider agrees.
- Consent to be contacted for job opportunities and pilot testing.

Provider Quality Levels

Level 1 - Listed

Provider has basic profile information and selected service categories.

Level 2 - Identity Verified

Provider submitted ID and passed basic identity check.

Level 3 - Work Verified

Provider submitted work samples, references, or completed pilot jobs.

Level 4 - Top Rated

Provider has strong ratings, completed jobs, fast response, and low dispute rate.

Level 5 - Certified or Business Verified

Provider has optional certificate, training credential, shop, permit, or recognized professional background.

Operational Rules for Providers

- Respond honestly and only accept jobs you can perform.
- Do not change price unfairly after arrival unless the job scope is different from the posted request.
- Communicate delays as early as possible.
- Respect client property and privacy.
- Do not harass, threaten, or pressure clients.
- Do not bypass platform rules during pilot tracking.
- Ask client to confirm job completion before leaving if possible.
- Accept that ratings and reviews are part of the trust system.

Retention Strategy

- Give early providers a founding provider badge.
- Share monthly performance summary: requests received, offers sent, jobs completed, ratings.
- Feature high-performing providers on the Facebook page.
- Create category-based provider groups for updates and feedback.
- Ask providers what types of jobs they want more of.
- Avoid charging too early before providers feel real value.
- Protect providers from abusive clients through two-way ratings.

Dispute Playbook

Common Disputes

Provider no-show. Client no-show. Price changed after arrival. Poor quality work. Damage to property. Payment disagreement. Scope misunderstanding. Rude communication.

Evidence to Collect

Original request details. Photos/videos before and after. Chat messages. Offer amount and agreed scope. Completion confirmation. Ratings and complaint notes.

Possible Actions

No action but record note. Private warning. Public rating remains. Temporary account restriction. Removal from verified status. Suspension or permanent ban for severe cases.

Provider Recruitment Targets

Suggested targets for the pilot city. Category Minimum Providers Ideal Providers Reason Appliance Repair 8 15 High household demand and urgent repair needs. Plumbing 6 12 Leak and clog problems require fast response. Electrical 6 12 Safety-sensitive and common household need. Computer Repair 5 10 Strong fit with students, offices, and households. Mechanical/Motorcycle 5 10 Common in local communities. Carpentry/Home 5 10 Frequent small repair and improvement jobs. Maintenance Graphic/Digital Services 5 10 Useful for local events, businesses, and students. General Odd Jobs 10 20 Flexible supply for miscellaneous needs.

Definition of Terms

These terms provide a shared vocabulary for reading and discussing the KAILA founder package.

KAILA

The proposed local services marketplace that helps clients find trusted local help and helps skilled workers become more visible.

Client

A person, household, business, or organization that posts a service need or hires a provider through KAILA.

Provider

A skilled worker, freelancer, technician, shop, or service professional who offers work through KAILA.

Service Request

A client post describing the job needed, location, budget, urgency, details, and optional photos or files.

Offer

A provider's response to a service request, including price, availability, scope notes, or proposed schedule.

Counter-Offer

A revised offer made when the provider or client proposes a different price, schedule, or service scope.

Marketplace

The two-sided system where clients and providers discover, evaluate, transact, and rate each other.

MVP

Minimum Viable Product; the simplest usable version of KAILA needed to test marketplace behavior.

Pilot

A limited real-world launch in one city or area used to validate demand, provider response, operations, and trust.

Concierge Pilot

A manual version of the marketplace run with simple tools such as forms, spreadsheets, Facebook, and Messenger before building the full app.

Verification

The process of checking provider identity, service information, work samples, permits, certificates, or references.

Rating

A post-job score or review used to build trust, measure reliability, and improve future matching decisions.

Dispute

A reported disagreement about price, quality, scope, completion, behavior, payment, or other job-related concerns.

Lead Credit

A future monetization unit that may allow providers to access or respond to qualified service opportunities.

Premium Profile

A future paid provider profile upgrade that may improve visibility, presentation, or trust signals.

Business Account

A future account type for shops, small businesses, teams, or organizations with recurring service needs or multiple providers.

Go/No-Go Criteria

The evidence-based thresholds used to decide whether to proceed, narrow the scope, redesign, or pause.
