

KAILA Business Plan

Founder & Co-Founder Edition

1. Executive Summary

KAILA is a local services marketplace designed to solve a common community problem: people need help but do not know who to call, while skilled workers have valuable abilities but remain invisible beyond their personal networks. KAILA bridges this gap through a trusted platform that enables discovery, matching, reputation building, and service transactions.

2. Vision, Mission, and Core Values

Vision: A future where every skilled worker can be discovered and every household can quickly find trusted help.

Mission: To make skilled people visible. Core Values: Trust, Reliability, Community, Accessibility, Opportunity, and Accountability.

3. The Story Behind KAILA

The idea originated from a recurring local behavior. When people need a plumber, electrician, technician, mechanic, or designer, they often ask: 'Naa moy kaila-' KAILA transforms this everyday question into an organized and scalable marketplace.

4. Problem Analysis

Clients face difficulty finding trusted providers, comparing prices, and obtaining urgent help. Providers struggle with visibility, inconsistent income, and dependence on referrals. This creates inefficiencies on both sides of the market.

5. Market Opportunity

Millions of Filipinos operate in the informal and independent services economy. Smartphone adoption and internet penetration continue to grow, creating favorable conditions for a digital marketplace focused on local services.

6. Target Customers

Primary: Households, renters, homeowners, and small businesses. Secondary: Freelancers, students, and professionals. Provider Side: Plumbers, electricians, mechanics, appliance technicians, carpenters, welders, designers, computer technicians, and other skilled workers.

7. Customer Personas

Detailed profiles include homeowners needing urgent repairs, technicians seeking more jobs, and small businesses requiring reliable maintenance support.

8. Competitive Analysis

Competitors include Facebook groups, Messenger referrals, word-of-mouth networks, classified listings, and local service directories. KAILA differentiates itself through structured discovery, ratings, trust systems, and provider visibility.

9. Unique Value Proposition

For Clients: Faster service discovery, transparency, and trust. For Providers: Visibility, reputation building, and increased opportunities. For Communities: Stronger local economic activity and utilization of local talent.

10. Product Overview

Clients can post requests, set budgets, indicate urgency, upload photos, compare providers, and leave ratings. Providers can create profiles, receive requests, submit offers, and build public reputations.

11. MVP Scope

Registration, provider profiles, service requests, offers and counter-offers, messaging, ratings, reviews, moderation tools, and administrative functions.

12. Business Model

Phase 1: Validation and adoption. Phase 2: Premium visibility products. Phase 3: Lead credits, subscriptions, commissions, and business accounts. Phase 4: Partnerships and ecosystem monetization.

13. Revenue Streams

Featured listings, premium provider profiles, lead credits, transaction commissions, sponsored placements, local advertising, and business subscriptions.

14. Marketing Strategy

Provider-first recruitment, community engagement, social media campaigns, referral programs, partnerships with local organizations, and grassroots marketing.

15. Operations Plan

Provider onboarding, verification, customer support, dispute resolution, moderation, service quality monitoring, and safety procedures.

16. Trust & Safety Framework

Identity verification, ratings, reviews, reliability scoring, complaint handling, provider monitoring, and fraud prevention systems.

17. Technology Roadmap

Phase 1: Web MVP. Phase 2: Progressive Web App. Phase 3: Native mobile applications. Phase 4: Analytics, AI recommendations, and advanced marketplace tools.

18. Organizational Structure

Business Lead, Operations Lead, Marketing Lead, Provider Acquisition Lead, Finance Lead, and Product & Technology Lead.

19. SWOT Analysis

Strengths: Real problem, local relevance, founder-market fit. Weaknesses: Marketplace cold start. Opportunities: Underserved communities. Threats: Competition, fraud, and user inertia.

20. Risk Management

Identify risks related to adoption, trust, provider inactivity, legal issues, competition, and operational complexity, with mitigation plans for each.

21. Financial Plan

Estimate startup costs, operating expenses, infrastructure costs, marketing budget, customer acquisition costs, and projected revenue growth.

22. Three-Year Financial Projection

Year 1: Validation and growth. Year 2: Monetization. Year 3: Expansion and profitability targets.

23. Key Performance Indicators

Active providers, active clients, posted requests, completed jobs, ratings, repeat usage, response times, provider earnings, and marketplace value.

24. Go-To-Market Plan

Pilot launch in one city. Build provider density first. Validate demand before scaling. Expand based on measurable success metrics.

25. Expansion Strategy

Expand city-by-city and province-by-province while maintaining marketplace density and service quality.

26. Exit Strategy

Remain privately owned and profitable, expand nationally, attract acquisition interest, or develop strategic partnerships.

27. 12-Month Execution Roadmap

Months 1–2 Validation. Months 3–4 Recruitment. Months 5–7 Development. Months 8–9 Pilot Launch. Months 10–12 Optimization and Growth.

28. Conclusion

KAILA is not merely an application. It is a visibility platform for skilled workers and a discovery platform for communities. By solving the visibility problem, KAILA can unlock economic opportunities while making trusted local help easier to find.

Definition of Terms

These terms provide a shared vocabulary for reading and discussing the KAILA founder package.

KAILA

The proposed local services marketplace that helps clients find trusted local help and helps skilled workers become more visible.

Client

A person, household, business, or organization that posts a service need or hires a provider through KAILA.

Provider

A skilled worker, freelancer, technician, shop, or service professional who offers work through KAILA.

Service Request

A client post describing the job needed, location, budget, urgency, details, and optional photos or files.

Offer

A provider's response to a service request, including price, availability, scope notes, or proposed schedule.

Counter-Offer

A revised offer made when the provider or client proposes a different price, schedule, or service scope.

Marketplace

The two-sided system where clients and providers discover, evaluate, transact, and rate each other.

MVP

Minimum Viable Product; the simplest usable version of KAILA needed to test marketplace behavior.

Pilot

A limited real-world launch in one city or area used to validate demand, provider response, operations, and trust.

Concierge Pilot

A manual version of the marketplace run with simple tools such as forms, spreadsheets, Facebook, and Messenger before building the full app.

Verification

The process of checking provider identity, service information, work samples, permits, certificates, or references.

Rating

A post-job score or review used to build trust, measure reliability, and improve future matching decisions.

Dispute

A reported disagreement about price, quality, scope, completion, behavior, payment, or other job-related concerns.

Lead Credit

A future monetization unit that may allow providers to access or respond to qualified service opportunities.

Premium Profile

A future paid provider profile upgrade that may improve visibility, presentation, or trust signals.

Business Account

A future account type for shops, small businesses, teams, or organizations with recurring service needs or multiple providers.

Go/No-Go Criteria

The evidence-based thresholds used to decide whether to proceed, narrow the scope, redesign, or pause.
